 - 2 knob- DEST chooses destination patch number
 - 3 knob- CHAR chooses characters
 - 3 button: SKIP jumps through character types
 - 1 button: ENTER stores patch
 - 2 button: EXIT without saving
-

NOTES:

- * POWER ON by plugging cord into input, (no audio pop)
- * Signal flows from RIGHT-TO-LEFT through the chain (following the jack sides).
- * if the F●S hold-press is set to activate TAP TEMPO, then the tuner is not available. Tap tempo is always available with ○1 button.
- * Some combinations of complex FX can exceed the available DSP. "DSP FULL" is displayed and the FX will be put in a THRU MODE (over the effect). This will allow you to remove or replace other FX in the chain without having to reload this choice.
- * LineSel FX allows you to set levels for line out and FX out, and the F●S toggles between direct to output, or to FX. Effectively, ON/BYPASS for everything after LineSel.
- * Input is rated at -20dBm, 1M-Ohm.
- * Output level: Line +5dBm
- * Output load impedance of 10 kΩ or more
- * POWER DC 9V (ctr neg), 500mA (zoom AD-16), there is also a battery setting for Alkaline & NiMH in settings.
- * ALL INITIALIZE (does not remove add-ons from Stomp Share) press & hold #1 button while powering on. Confirm.
